

Andrea Carniti

Product Designer — complex applications & design systems

hello@anetarey.com · Warsaw, Poland · arejdych.github.io/andreacarniti

SUMMARY

Product designer with experience across consumer and business web and mobile apps. I approach every project holistically, balancing user needs with business goals. I specialize in complex, data-heavy applications, but equally enjoy consumer products where visual delight and craft take center stage. Passionate about building comprehensive design systems as the foundation for scalable, beautiful products.

EXPERIENCE

Lead & Sole Product Designer 2023 — Ongoing

Baiond
A cloud platform turning sensor, camera, and satellite data into one live view — helping cities, infrastructure, and agriculture act on real-time insight instead of raw numbers.

- Owned end-to-end UX across research, IA, interaction, and visual design
- Built and maintained the design system powering every industry vertical
- Shaped product strategy and roadmap directly with founders and engineers

Lead Product Designer 2022 — 2023

Cheerin'
A mobile app helping friend groups settle on plans instead of endless group-chat back-and-forth, through polling, scheduling, and venue-discovery flows.

- Led end-to-end design for polling, scheduling, and venue-discovery flows
- Ran user research and usability testing to reduce plan drop-off
- Partnered closely with two engineers and the founder to ship fast

UX Designer 2021 — 2022

Infable Development
A web and mobile platform turning building energy and utility sensor data into actionable insights for facility managers.

- Redesigned the core monitoring dashboard around real daily decisions
- Conducted contextual research, shadowing facility managers on live shifts
- Collaborated with a product manager and two engineers on delivery
